

## Are Young "Journalists" Today Not Taught The Meaning Of OBJECTIVITY?

**S**ome of us look for gloom-and-doom as though it were a solace, when we should be seeing the Bright Side!

If someone in your life taught you the wonders and the happiness that having a positive outlook can bring -- you are, indeed, ahead of a lot of people who did not have that wonder taught to them.

You see people every day in your walk through life who never see the brighter side of anything. That is a sad happening.

Did some professor somewhere teach his journalism students to look for witches and goblins at every turn, if they expected to get a job in television (or the movies)?

That is not an exaggeration -- it is a question. Why do so many young would-be journalists on the television trail appear that they do not understand what being a journalist is all about? Someone put the wrong thing into their minds -- and they appear useless. Actually, they appear scary. Exceptionally so!

The so-called reporters on all major television networks today are the victims of perverted minds when it comes to what is news and what is reporting. They wouldn't know objectivity if it struck them down like lightning, and their ability to perceive honesty and integrity seems unlimited in the "I don't get it" department.

It certainly makes you wonder if all the time and money spent on "teaching" young people how to report the news and to be objective observers -- is, at the very least, WASTED!

An understanding of modern technology seems to run amuck when the mouths, lips, and "brains" of professors of "higher learning" get set into motion. They are not fair-minded at all, and they seem to dwell on what we are pointing out at the beginning of this column! Gloom-and-doom seems to be their subject of choice at every turn, and they rarely if ever believe in just plain REPORTING THE TRUTH -- AS IT HAPPENS. "Truth," they say, "must be doctored!"

We see the young in television today, following those who were never taught what honesty and truth are all about. Sad!

**REPORTING THE TRUTH** is a modern-day phenomenon that takes place rarely, anymore. **WHAT WAS ONCE THE BASIS OF ALL NEWS REPORTING** has not caught-on with today's young **"JOURNALISTS"**

## If You Have Ever Considered "Globalism," Have You Failed To Consider Your National Honor?

**O**' Tuck for a long time has made a point of declaring that there is VOTER FRAUD in America, and America is better than that.

Too many people today apparently "don't like" America partly because they have been programmed for the past eight years at least, to do just that. Seems to us, if you have a problem with your country of origin -- a good lesson in National LOYALTY is in order!

We have had national leaders who would refuse to acknowledge the potential existence of VOTER FRAUD because it served their political purposes to do so.

Now though, we have a President who -- in spite of the fact that he won the office fair and square, is still adamant about "getting it right -- all over!"

Since we were old enough to know its meaning, we have been a nationalist. Our interpretation of that is that you owe an allegiance, and your very existence, to the country of your birth and family origin.

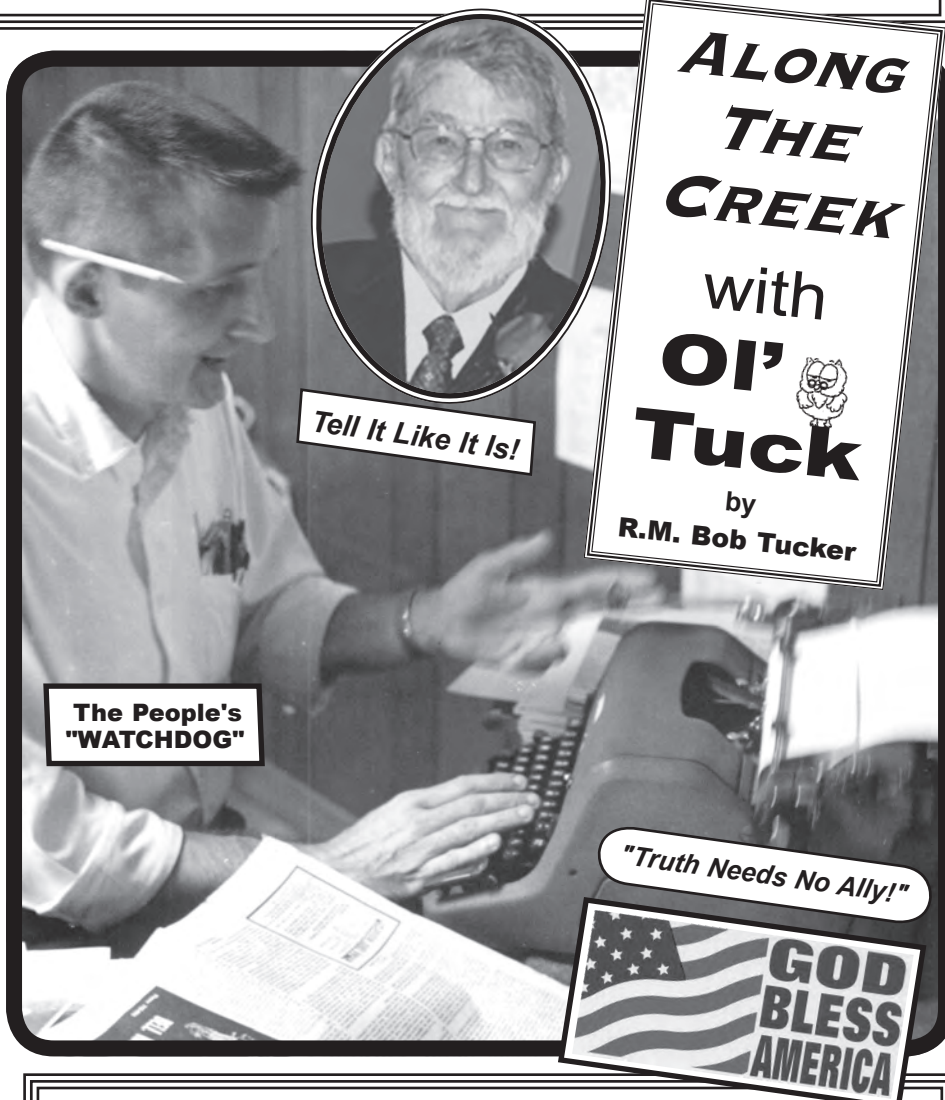

If you cannot do that, you need to find out why, and do something about it. Some folks don't understand the meaning of "pride!"

National pride and national allegiance are necessary if any nation or country is to survive in this world. We have allowed those who would feather their own nests -- regardless of anyone else that they might step on in the process -- and it is well past the time that we brought those people to account and to justice.

We brag and boast that "America is the land of the free," but, we are not "free!" We have allowed carpetbaggers and bad guys (and gals) to dominate in the political arena to a degree that shames our national origin, our nation's Flag, and our national honor -- the very essence of our time and purpose on this planet.

O' Tuck delights in the fact that we finally have a President who believes in making things right for our country. As we have said in this space on numerous occasions, it is a dishonor for America to allow something like VOTER FRAUD to happen, and to continue to exist. It serves the purpose of charlatans in our government who claim to represent us when they are literally stealing the very substance of the heritage that we all should hope to pass on to our children, and their children.

Those who would claim America as theirs to molest and to plunder, do not deserve to be called "Americans." If you want "globalism" try those Democrats who were recently defeated! Most of them seem to have the qualifications that you seem to want -- or do you?

## So Many Average Americans Had Such A Several-Year-Old Need For President Trump's Logic!

**I**f enough logical-thinking Americans can pick-up on the basic thinking of President Donald Trump, we don't see how the Democrats (or anybody else, for that matter) can come up with what they consider to be an alternative to him four years down the road.

At this point in time -- as far as those Americans who put him in the office are concerned -- he is a SHOO-IN and will continue to be, especially if he follows-through on his plans and what he has done so far. PATRIOT Americans trust him! Believe it.

Those Americans who finally got tired -- SICK AND TIRED -- of the Obamas and the Clintons, got off their lazies and went to THE POLLS in record numbers.

How will anybody -- especially a liberal Democrat -- find an answer that will resonate with The People the way that Trump did (and yet, still does)? We don't see them doing it in FOUR years, or ever, for that matter. They do not have "the right stuff!"

When more Americans realize (as so many of them have already done) the extent to which Obama and the Democrat Party have taken our country DOWN THE TUBE -- they will not return to the politics of parasites that have corroded our intent, our honor, and our future. Not in your lifetime, we hope (or, ever).

We Americans may be slow, but, as honorable people, we are far from stupid. The sorry selfish politicians must be dealt with in a just and equitable manner: **Throw them out, and keep them out!**
